The holiday starts with time at a top class hotel in Kathmandu, from where you can explore its splendid cultural history, the unrivalled shopping experience of Thamel, optional guided visits to spiritual architectural wonders such as the ancient stupa at Bhodunath and Swayambu, the monkey temple, or if you prefer spend the afternoon lying by the pool at one of Kathmandu's best hotels.

The content is flexible but will include an introduction to Buddhist history and ideas, practice at various meditation techniques and discussion about these techniques and how we can use them to cope with life in general.

IMS is a spiritual refuge for all who seek freedom from the suffering of mind and heart. We offer meditation retreats rooted in the Theravada Buddhist teachings of ethics, concentration and wisdom. These practices help develop awareness and compassion, giving rise to greater peace and happiness in the world.

The Retreat Center started its program of silent meditation courses in 1976. It offers a full yearly schedule of over 25 meditation courses, ranging in duration from a weekend to three months. Most retreats run for 7-9 days.

All Retreat Center courses provide instruction and practice in insight (vipassana) and/or lovingkindness (metta) meditations.

At the Retreat Center, most courses are designed for both new and experienced meditators. Instruction in meditation and evening talks about the Buddha's teachings are given daily. Individual or group interviews with the teachers take place at regular intervals.

Suan Pa Himawan Retreat Center, a sanctuary for meditators in the midst of rolling hills and mountainous scenery of Phu Ruea, Loei province, Thailand.

At the Retreat Center, you will find and learn one of the world's simplest and most effective methods of meditation and live in a beautiful, comfortable environment. You will also receive personal guidance on meditation that best fits your unique character from experienced teaching monks.

We name our meditation retreat after an ancient concept in meditation, the Middle Way, which Lord Buddha referred to as the path that leads to enlightenment. In terms of meditation, it means taking the middle path or the center of the body to reach a desired destination or goal -- whether it is a serendipitous solution to a problem, a creative insight into life and living, or even freedom from emotional suffering.

The serenity and natural beauty of the surroundings make the retreat center an ideal place for meditation and conducive for listening to your inner voice that might have been silenced by hectic lifestyles, busy schedules and multiple responsibilities.

The Ananda Meditation Retreat is operated by a group of sincere monastics whose aim it is to offer ways to uplift and inspire others. We honor all faiths and religious beliefs, and rather than show the differences that exist within various religious beliefs, we honor the common goals that all spiritual aspirants seek: happiness, joy, inner peace and love.

We offer a variety of options to help you make the most of your retreat vacation. The Meditation Temple is open throughout the day and for meditations each morning and evening, as well as during those times the temple is not in use for a special program. Many walking trails exist both within the retreat and around the nearby forests and rivers.

Sandra Straw is the principle guide on all the Journeys and Retreats — as well as being the facilitator for the Reiki Jin Kei Do & Buddho Enersense Courses and Wellbeing Retreats offered by Circle of Light. Sandra has been teaching spirituality and personal development for over 15 years and has a lifetime experience as a teacher for inner growth and healing. She lectures extensively and internationally.

She has become an expert on the culture and history of the ancient sacred lands she visits. When conducting her tours and retreats Sandra is often accompanied by shamans, elders, priests or Egyptologists as appropriate.

Our Journey incorporates many of the major attractions of these ancient Buddhist and Hindu Kingdoms. Beginning in the capital of Nepal, Kathmandu, surrounded by Himalayan peaks we take a glimpse of medieval times revealed in its wooden buildings and temples, narrow streets, and palaces. Included is a stay in the famous Chitwan National Wildlife

Park to enjoy elephant-back pursuits and the wonderful wildlife including the elusive tiger.

Green Gulch Farm Zen Center, also known as Green Dragon Temple (Soryu-ji), is a Buddhist practice center in the Japanese Soto Zen tradition offering training in Zen meditation and ordinary work. Our effort at Green Gulch is to awaken in ourselves and the many people who come here the bodhisattva spirit, the spirit of kindness and realistic helpfulness. This is how we offer our understanding of Buddha's Way.

Green Gulch Farm is located in Marin County, just north of San Francisco, in a valley that opens out onto the Pacific Ocean. In addition to the temple program of zen and study, it includes an organic farm and garden, as well as a guest house and conference center.

Meditation is for everyone, regardless of religious background, race, ethnicity, gender, or orientation. We welcome everyone, including people of all faiths, to any of our Kadampa meditation centers throughout the state of Florida and beyond, in the now 1100 Kadampa meditation centers and groups worldwide.

Meditation is a method for developing inner peace by working with the mind. First we learn how to identify our different positive and negative mental states, and then we apply methods for eliminating negative states and cultivating positive ones.

On this site, you'll also find information on all Kadampa Buddhist Centers and branches in Florida, Kadampa Buddhism in the USA and worldwide, Buddhist Festivals, Buddhist Temples, and more. There is a link to all you'll need by way of Buddhist meditation supplies, whether it be books, audio, or cards and posters. It is traditional in Kadampa Buddhist Centers to do regular meditation retreats. This allows us to digest the teachings we have heard and to gain some precious familiarity with them. The more sessions we can attend, the more peaceful and concentrated our mind will become, and the more relaxed and happy we will feel.

Kripalu offers a curriculum of more than 750 educational programs and spiritual retreats attended by over 25,000 individuals each year. Kripalu's faculty includes world-renowned experiential teachers along with prominent visionaries, authors, artists, and inspirational speakers. All programs are carefully designed or selected to serve the needs of a broad spectrum of people, ranging from those likely to appeal to people just beginning their transformative

journey, along with those likely to serve the needs of longtime practitioners. Some programs draw from the world's great wisdom traditions while others are based on the pioneering work of contemporary teachers. A program offering that has tremendous breadth and depth naturally flows from our guiding view, which embraces all systems and techniques that help harmonize body, mind, and spirit, create balance and thriving, and return individuals to the vibrancy that is their birthright. In the face of such diversity, one thing can be guaranteed: every Kripalu program will bring you into the presence of a leading figure in his or her field and invite you to explore and celebrate the wonder and mystery of life.

While grounded in yoga, it is important to understand that Kripalu does not espouse a narrow or sectarian mindset. According to the Kripalu tradition, yoga is an honest and unfettered inquiry into all practices, philosophies, techniques, and approaches that produce thriving for individuals, families, communities, societies, and the planet. This "nondenominational yoga" includes perennial wisdom gleaned from all the world's religions and spiritual traditions, together with the amazing knowledge gained from science, psychology, and contemporary researchers. It also includes healing techniques drawn from traditional, allopathic, and complementary/alternative medicine that help individuals heal and return to high levels of functioning.
