Travelers will enjoy both a panoramic city tour and two unique walking tours of the restored center, then continue by fast mainline train across the border into Poland. As we explore Warsaw, we marvel at the city's remarkable renaissance from the devastation of the Second World War. Central Europe

One of the great pleasures of rail travel is the way a train gets you to the very heart of a city. Step out of the station in Venice, for example, and you are literally at the water's edge. Embark at Budapest and you will wake in Istanbul, in Transylvania, in Cracow or Berlin - destinations of cultural and architectural heritage, icons of world history.

This is one of the most stimulating ways to travel. And before you drift off to sleep, lulled by the rhythm of the train, you can watch the Great Hungarian Plain, the Tatra Mountains or the Danube roll by in the twilight, from the comfort of your own luxury room. The dream begins. The Danube Express normally comprises eight cars headed by a modern electric locomotive. The cars, all of which are new or refurbished, provide a high level of comfort and convenience, consist of three deluxe sleeping cars, two classic sleeping cars, restaurant car, lounge car and a car for the staff. There are also Presidential Cars which can be included in the consist.

Each sleeping car has a fully dedicated member of staff who will be at your service throughout the journey, in charge of housekeeping and that all-important wake-up call.

We provide all our guests with a full timetable explaining the details of our excursions and the timing of all meals along with other health, safety, weather and travel information.

Mexico's Copper Canyon

The Copper Canyon Train

The Chihuahua-Pacifico Railway, completed in 1961, after 90 years of construction, is a modern marvel of engineering. The same rails are used by all trains going through the Canyon. With Caravan you travel both the south and the north route in a spacious air-conditioned chartered first class train car.

Both of your Copper Canyon train rides are scheduled in the daytime for the best lighting for views and photography. Often the train can be delayed for up to a couple of hours. A roundtrip train ride doubles your chances of viewing the canyon during daylight. Also, by going roundtrip, you can see a different side of the canyon in each direction. Caravan has reserved an entire first class train car. For your comfort, there are always more seats in your car than there are clients. For your health, animals are not permitted in your car. For your safety, the seats in your train car are only available to Caravan clients and are not open to the general public.
